

Sleep for whitening,
wrinkle-free, smoothing effect

Modern people spend a lot of time and money looking for anti-aging remedy, with the hope of turning back the clock to look charming and stay physically fit always. Everyone knows how important beauty sleep is; increase in the frequency of electronic device usage, stress at work and incorrect sitting posture are some factors affecting their sleep quality at night. Eventually, they wake up looking tired daily due to prolonged restless sleep which will also accelerate the aging process.

Beauty Sleep & Brain Health

Now, You Can Enjoy Beauty Sleep Comfortably

The Patented Brand New Butterfly-shaped Pillow

is designed to help you sleep comfortably. The interaction between AmPower Platinum cotton and AmCopper (copper ion) filler keeps the head cool with zero pressure. It promotes cerebrospinal fluid flow and aids the body detoxification system, allowing you to easily detoxify your body during sleep and restore the brain and skin regeneration ability.

Our brain can only be detoxified during sleep

Study: Sleep Drives Metabolite Clearance from the Adult Brain. This study shown that the importance of sleep: it can effectively remove metabolic waste from the brain during sleep, thereby rejuvenating the body.

Delicate Design with 7 Unique Selling Points

1

Enhanced Level of AmPower Platinum: Extra Beauty Effect

AmPower Platinum Energy Cotton has a wider coverage for more beauty effect. Platinum energy produces a trillion vibrations in one second, thus activating the cerebrospinal fluid water molecules that responsible for brain detoxification, and further promoting the brain to discharge waste during sleep. At the same time, AmPower Platinum Energy activates the regenerative capacity of skin cells. Rejuvenating the skin during sleep is the key of beauty. Beautify pillow creates a beautiful you every day.

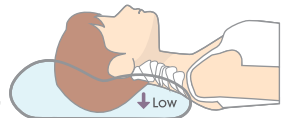

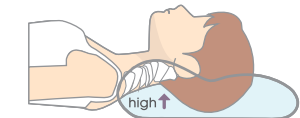

2

A Pillow With 2 Heights Most Suitable, Experts Suggests

Whether you are sleeping on your back or on the side, you can relax your neck and breath normally.

Low
High

3

Both Sides Top & Bottom Can Be Used

The newly design pillow is divided into two parts perfectly and accurately support the curvature of the head and neck and shoulders, providing a comfortable decompression effect on the neck and shoulder muscles.

Sleep on the part **3** of the pillow (higher) helps to support the neck, stable your sleeping position

Sleep on the part **4** of the pillow (lower) helps for heat dissipation; make you fall asleep easily

7

The Amazing Filler Will not generate heat, has high breathability and flexibility, and provides a massaging effect and support

Filler **1** is silent transparent tube that is characterized with silence. When you sleep on your side, it improves your sleep quality and it won't be loud

Filler **2** is a high-elastic hollow ball, which is characterized with high resilience. It helps you to turn over smoothly and does not wake you up.

Filler **3** is a high-supporting tube that is very soft and can be used to match various neck curves, increase the support area, and reduce the pressure on the neck.

4

Pillow's Thickness Can Be Freely Adjusted

The preferred height of each person's pillow is different. This pillow can be opened to adjust the amount of the fillers, allowing you to simply adjust the height of the pillow to become exclusively yours.

5

Washable Pillowcase

The Pillow is washable and thus able to maintain good hygiene. Beautify Pillow is made using the latest platinum technology that allows it to withstand multiple washes and rubbing, hence ensuring its durability and effectiveness. It is recommended to wash with water and then air dry. It is not recommended to use any softener and drying machine.

6

All New AmCopper elastic tubes: Cooler head & warmer body, ease for sleeping

The pillow center **4** added with AmCopper (copper ion) elastic tube for faster heat dissipation and a more comfortable sleep. Since ancient times, Chinese medicine experts have the saying that “Keeping your head cool and body warm is essential for good sleep”. A cool head can enhance the overall calming effect of relaxation. AmCopper tubes help maintain the proper temperature of the head and also promote the health of the brain. The medical use of copper can be dated back to 2600 BC and has been used in Egypt for the sterilization of chest wounds and drinking water. And is still widely used today in many international medical care institutions.
